

ไฟสัญญาณเตือนทางอากาศแบบกระพริบอัตโนมัติ (Obstruction Light automatic flasher lamp)

Application : In air traffic , Installation on the tower , High -rise constructions, marine signal light. In all industries , automatic machinery , textile machinery , to signal start and finish of production cycle , warehouses , showrooms , automatic gates, emergency exit , danger barriers on roads , etc.

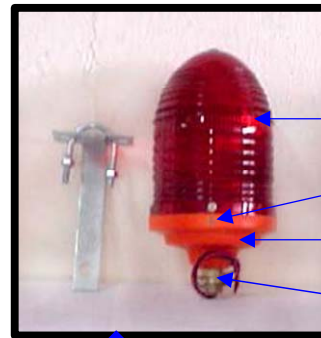

Automatic Flasher lamp

Model:BSFL-001 , BSFL-220R5R27

● Acrylic Lens

● Body ABS

● Stud M12

Automatic Flasher lamp with sensor

Model:BSAF-001 , BSAF-220R5E27

● Acrylic Lens

● LDR sensor

● Body ABS

● Stud M12

LENS	Red color acrylic lens globes for 360 degree visibility
Body	ABS
Base	M12 Stud base
Power	Operating voltage on 120 or 220 Vac 50-60 Hz up to proper voltage or power of lamp
Temperature	At -20 C to +60 C

**** Accepts traffic signal lamps 60-70W or LED lamp with E27 base**

Order information

Models:	Type	Voltage	Power / Pole	Life Time
BSFL-001	Single type	220 Vac 50 Hz	60W/70W / E 27	life time 2,000 hrs 
BSAF-001	Single type with sensor	220 Vac 50 Hz	60W/70W / E27	life time 2,000 hrs
BSFL-220R5E27	Single type	220 Vac 50 Hz	5W LED Lamp Red color / E27	life time >70,000 hrs
BSAF-220R5E27	Single type with sensor	220 Vac 50 Hz	5W LED Lamp Red color / E27	life time >70,000 hrs
